Approvestor Release 2003/12/22 : CIA-RDP82-00457R003300750008-2 25X1

c. Signal units of the Central Group of Forces, which could not be identified by their numerical designation, were located in BAD VOESIAU and GUNTRADSDORF. Courses for signal personnel were conducted in the latter town.

3. 95th Gds Ftz Rifle Div

a. Most of the component units of the 95th dis Mtz Rifle Div were at the DOPLLERSHEIN troop training grounds in late July 1949. Part of the recruits were still observed at the military posts, as, for example, in the MAUER-OEHLING quartering area of the 290th Gds Stz Kifle Regt.

a courier connection between St.POELTEN and the military posts of MAUER-OBHLING, GAMING and MELK. This connection shows the connection of these military posts (where component units of the 95th Gds Mtz Rifle Div are known to be stationed) with St. POELTEN (where the Hq of the 95th Gds Mtz Rifle Div is still assumed to be stationed).

- c. Small component units of the 95th Gds Mtz Rifle Div were still assi gned to zonal border duty at the end of July 1949.
- d. An engineer units was reportedly stationed in WELM in late July 1949. It is considered probable that this engineer unit may have been a component of the 177th Engr Bn of the 95th Cds Stz Rifle Div.

4. 13th Gds Megz Div

25X1

25X1

25X1 5.

- a. Most all component units of the 13th Eds Hecz Div were at the DOELLERSHEIM troop training grounds at the end of July 1949.
- b. Only small recruit units of the component units of the 45th Gds Mecz Regt had been left behind th the TRAISKIRCHEN post. The recruit units were being trained near the military post.
- c. The quarters of the 13th Gds Mecz Div in the VIENNA area were only lightly occupied in late July 1949 (guard details). Observations confirmed previous information from which it was assumed that the following component units of the 13th Gds Mecz Div had left their posts in the VIENNA area for managers:
- (1) 44th Cds Mecz Regt and 722d Motor Trans Bn: VIENNA Trost
- (2) 46th Gds Mecz Rogt and 106th Gde Hv Tank SP Rogt: KAGRAN Kaserne (3) 32d Gds Arty Regt: KAISEREBERSDORF.
- d. Only rear details of both the 8th Engr Bn and one battalion of the 46th Cds Mecz Regt remained in the KLOSTERNEUBURG post, during the last days of July 1949.

on 25 July 1949 that the 2500th AAA Regt of the 15th Gds Necz Div was stationed in STOCKERAU. From previous information it was, however, assumed that component units of the 23rd AAA Div were exclusively located there. Further information on the subject is required.

25rd AAA Div According to the information supplied from STOCKERAU, it appears possible that the antiaircraft artillery regiment of the 13th Ids Mecz Div may be stationed there as well as component units or at k ast the remainders of the 23rd AAA Div which are assumed to be stationed in STOCKERAU and KORNEUBURG.
